# A CONCRETE SOLUTION FOR ANY PROJECT

Accumix works closely with major national and international organisations on a wide range of construction projects throughout the UK and Europe.

Our flexible service is dedicated to meeting the demands of the construction and civil engineering industries with BSI accredited concrete mixes designed to fulfil the requirements of each project.

Accumix provided a service which delivered a flexible solution allowing us to carry out an intricate pour in a specific timeframe, with no waste generated.

Simon Williams  
Senior Project Manager  
Costain Ltd

- **Extensive industry experience**

Accumix works with leading contractors to key industries including the construction, motorway, rail, and air transport sectors.

- **Mixed on site**

Our modern fleet of volumetric vehicles enables us to deliver high quality concrete accurately and cost-effectively to any site without waste.

- **Out of hours services**

Accumix Concrete operates a dedicated out of hours service. Our flexible working approach enables us to operate during the night in order to meet specific project demands.

- **Site based solutions**

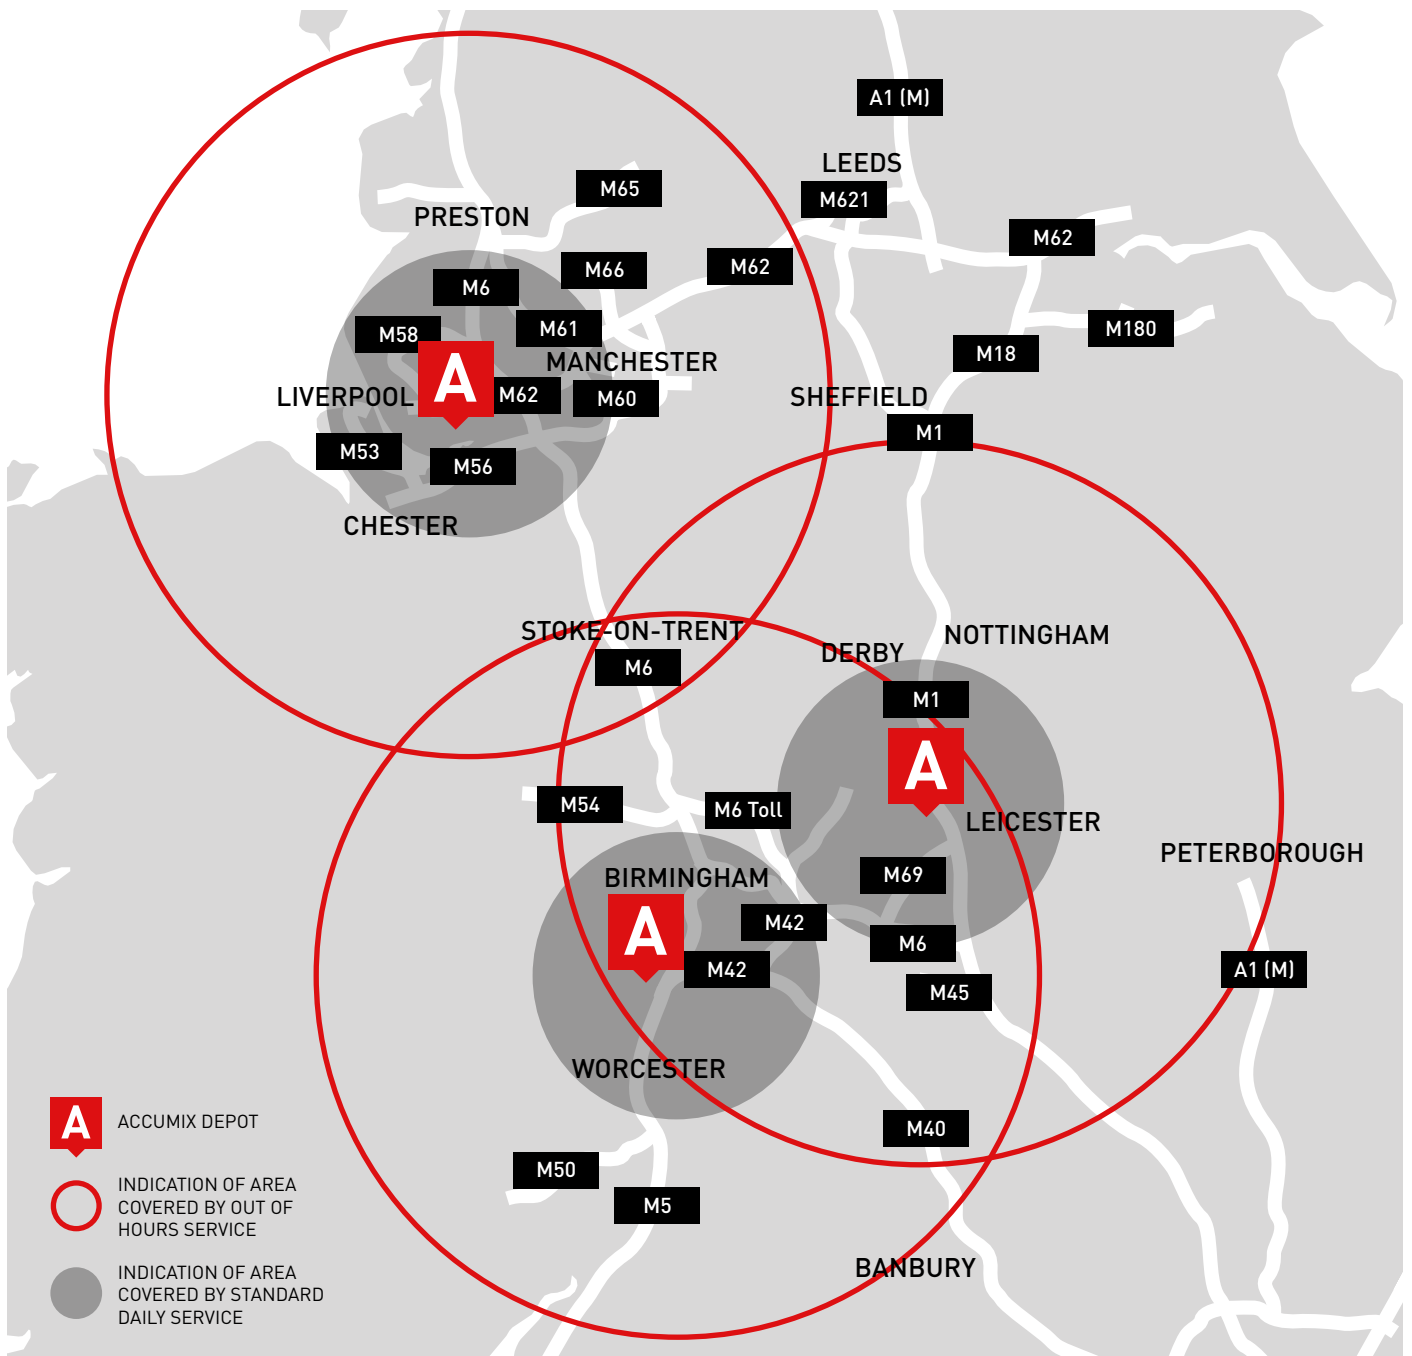

Our efficient, cost-effective solutions support large scale or long-term construction projects where concrete needs to be available continuously.

- **Nationwide infrastructure**

Accumix has developed a network of strategically based sites across the UK, supported by teams of dedicated operators, administrators and technical sales staff who are ready to deal with your enquiry. Please email your enquiry to [concretesales@accumix.co.uk](mailto:concretesales@accumix.co.uk)

## STRATEGICALLY BASED SITES WITHIN THE UK

Our network of depots at key locations throughout the UK allows us to provide an efficient cost-effective service. Please contact our offices for further information on our nationwide coverage.

### SPEED

Strategically located sites and a fleet of modern, custom-built delivery vehicles ensure expedient delivery to any mainland UK location.

### 24/7 DELIVERY

We can supply concrete 365 days a year including bank holidays and shut down periods. Call **01384 660 650** to discuss your project.
